Public transport ticket

In Milano you can use the same ticket (cost 2.20 €) and take the metro, bus and trains (including Passante within the city limits) for 90 minutes. You can use multiple types of transport during the validity time. Please keep your ticket during the whole trip as it will be requested to exit.

You can use also your credit card to pay the fare directly on buses/metro stations **but not on the S lines or Trenord trains** so it's not convenient if you need to take metro/buses + train to Bovisa because you will pay the fare twice. Please remember to swipe your credit card when you exit as well. FAQ on contactless payments:
