

## Project Manager open position

### Laboratory of Methodology for Clinical Research - Department of Oncology

Istituto di Ricerche Farmacologiche Mario Negri IRCCS, Via Mario Negri 2 - 20156 Milan

We are looking for a three-year fixed-term contract starting from 1 February 2023 for a qualified professional figure with a post-graduate Master in clinical research to be integrated in the Laboratory of Methodology for Clinical Research.

The laboratory of Methodology for Clinical Research promotes and coordinates clinical trials in collaboration with national and international research groups, by combining the mission and the identity of a nonprofit research institution with high quality standards.

The laboratory is composed of doctors, computer scientists, research coordinators, statisticians, pharmacovigilance and quality assurance managers and certified monitors.

### Requirements

- Master's degree in Pharmacy, Biology, Biotechnology or similar;
- Post-graduate Master in Clinical Research;
- Advanced knowledge of the English language;
- Excellent interpersonal and team working skills;
- Experience in coordination and data management of clinical trials in oncology

Scientific publications on peer-reviewed journals and experience in international clinical trials will be considered as preferential titles

### Position functions

The candidate will be integrated in a clinical research project concerning the biological and molecular characterization of tumors within the project financed by the Programma di Ricerca e Innovazione named "HEAL ITALIA - Health Extended Alliance for Innovative Therapies, Advanced Lab-research, and Integrated Approaches of Precision Medicine", active in the Partenariato Esteso called "HEAL ITALIA - Health Extended Alliance for Innovative Therapies, Advanced Lab-research, and Integrated Approaches of Precision Medicine", code number PE00000019, CUP B43D22000710006, granted by Ministero dell'Università e della Ricerca in the frame of Piano Nazionale di Ripresa e Resilienza, Missione 4 "Istruzione e ricerca" – Componente 2 "Dalla ricerca all'impresa" – Investimento 1.3, granted By Unione Europea – NextGenerationEU. Specifically, the project concerns the development of clinical trials regarding the clinical validation and implementation of innovative predictive, preventive, diagnostic and therapeutic precision medicine approaches, based on established or emerging molecular and clinical phenotyping.

### Submit application

Applications must include a *Curriculum Vitae* and must be sent no later than January 3rd 2023 in PDF format to Dr Eliana Rulli ([eliana.rulli@marionegri.it](mailto:eliana.rulli@marionegri.it)).
